

Activity Update – Worksheet

Workgroup: BSN Date: July 8, 2014

Leader: Elaine Keavney Recommendation # 4

Purpose: Increase the percentage of BSN graduates to 80% by 2020

Planned Activity/ies [current]

The first meeting of the group was held July 31st. Seven people were able to call in to this productive meeting. We had a couple of ideas that can be formed into concrete action plans:

Encouraging community college faculty to be personally supportive of seniors as they near graduation, encouraging them to continue their education

Encouraging hospital system leaders to create and display a culture of value for lifelong learning.

Timeline

Meetings will be held the last Friday of each month, by phone.

Very next step(s)

I will be contacting some people outside of the Portland metro area whose names I have been given, to invite their participation.

Resources/Source:

What is needed from the steering committee: (Decisions, Support, Resources, etc)

As we begin to move forward, we will need some ideas for funding.
