

Action Statements - not prioritized

The following items did not receive a priority vote, but may further inform the work plan in areas that were prioritized:

1. Extend SB4 allowing PERS exceptions for retired nurse faculty [until the faculty shortage is abated]
2. Describe quality standards for RN-BSN programs
3. Define, publish and actively support existing initiatives to develop front-line staff to lead improvement processes
4. Determine major health initiatives taking place in Oregon and nursing leadership engagement that is being provided or that is needed
5. Host a health policy course/workshop for nurses
6. Create, strengthen and support nurses in working more interprofessionally
7. Support presentations by nurses who are implementing aspects of IOM recommendations and other good work
8. Define standards for transition to practice at all levels
9. Have nursing students present at every OAC meeting for credit
10. Invite aspiring nurse leaders to experience participation in OAC and other leadership groups
11. Visibly engage at least two key non-nursing organizations in the OAC
12. Every OAC steering committee mentors a nurse that they include in meetings throughout the year
13. Assure that OAC information is easily accessible via links with other nurse org websites
14. Encourage educational institutions to include students on all committees
